All papers published in this volume of The International Turfgrass Society Research Journal have been refereed and subject to editing to adhere, as far as possible, to international standards of units, nomenclature and reference citation.

Papers in this Journal are published without liability for any loss or damage suffered as a result of their application or use. References to trade names and proprietary products are not to be construed as constituting an endorsement or criticism of the named products, nor is any criticism implied of similar products which are not mentioned. Opinions, statements, and conclusions expressed in the papers are those of the authors and do not necessarily reflect the views of the International Turfgrass Society.

The International Turfgrass Society thank the Institute of Groundsmanship, Milton Keynes, UK. for its contribution to editorial costs.
